1. Introducción

Gale Virtual Reference Library es una base de datos de enciclopedias, almanaques y fuentes de referencia especializadas para búsquedas multidisciplinarias. Algunos años atrás, los materiales de referencia eran accesibles únicamente en las bibliotecas, pero ahora puede acceder a ellos en línea dentro de la biblioteca o remotamente 24/7. Esta base le permite navegar dentro de la tabla de contenido así como dentro de la lista de ilustraciones.

Debido a que las bibliotecas crean su propia colección de ebooks, el contenido dentro de esta base puede variar dependiendo si esta en la universidad, biblioteca pública o en su oficina.

2. Tipos de Búsqueda

2.1 Basic Search o búsqueda básica.

Basic Search le permite realizar búsquedas en la base de datos utilizando palabras clave, o términos específicos, solo escríbalo en la caja de texto indicada y haga clic en el botón "Search". Puede seleccionar si la búsqueda será realizada por artículo, por palabra clave o por alguna fuente en específico. Las búsquedas siempre le darán como resultado, artículos en texto completo.

2.2 Advanced Search o búsqueda avanzada.

Permite al usuario especificar a fondo la búsqueda de manera inmediata con las diferentes opciones que tiene. Usando una expresión Booleana puede delimitar a varios criterios de búsqueda, así como utilizar los diferentes limitadores de área de conocimiento, por tipo de audiencia, por fecha de publicación, etc.

The screenshot shows the 'Advanced Search' page of the Gale Virtual Reference Library. The page has a blue header with the library's name and navigation links like 'Help', 'Gale Databases', and 'List of Sources'. Below the header, there are tabs for 'Basic Search' and 'Advanced Search'. The main search area is a yellow box containing a search form. The form has three input fields for search terms: 'cancer', 'lung', and an empty field. Each field is followed by an 'in' label, a dropdown menu for the index type (e.g., 'Article/Entry title', 'Full text'), and a dropdown menu for the Boolean operator (e.g., 'AND'). Below the search form are 'SEARCH' and 'Clear Form' buttons. Underneath the search form, there is a section titled 'Limit Your Search:' with instructions: 'To select multiple choices, hold down the Control key while making your selections.' This section includes several filters: 'By Source:' with a text input and 'Browse Sources'/'Clear Source' buttons; 'by Year(s) of Publication:' with a text input and '(yyy-yyyy)' label; 'by Subject Area:' with a dropdown menu showing 'Literature', 'Medicine', and 'Multicultural Studies'; 'by Audience:' with a dropdown menu showing '*None Selected*', 'Academic', and 'General Audience'; and 'Document Number:' with a text input. At the bottom, there is a 'Number of results per page:' dropdown set to '10' and another 'SEARCH'/'Clear Form' button.

Los resultados aparecen en forma de lista ordenados de acuerdo al nombre del artículo. Haga clic en el artículo de su interés para leer el texto completo del mismo.

The screenshot shows the Gale Virtual Reference Library interface. At the top, there is a navigation bar with the logo, 'Gale Virtual Reference Library', and links for 'Help', 'Dictionary', 'Gale Databases', 'Search Tips', and 'List of Sources'. Below this is a search bar with buttons for 'Basic Search', 'Advanced Search', and 'Search History'. The main content area is titled 'Advanced Search' and displays the search criteria: 'Your search ((Article/Entry title=cancer) AND (Full text=lung)) returned the following results.' Below this, it states 'Below are item 1-10 of 11 found.' There is a 'Revise Search' button and a 'Page#: 1 - 2' indicator with navigation arrows. A dropdown menu for 'Article Title' and a 'Sort' button are also visible. The search results are listed in a numbered format, each with a checkbox and a link to 'About this eBook'. The results include:

4. Formas de recuperación de los artículos

En todos los dos tipos de búsqueda, los artículos pueden ser recuperados de diferentes maneras:

- Impresos.
- Enviados por correo electrónico.
- Descarga del archivo pdf.
- Creación de InfoMarks.

Seleccione la opción deseada haciendo clic en el ícono correspondiente.

The screenshot displays the Gale Virtual Reference Library interface. At the top, there is a navigation bar with the Gale logo, 'Virtual Reference Library' text, and links for 'Help', 'Dictionary', 'Gale Databases', 'Search Tips', and 'List of Sources'. Below this is a secondary navigation bar with 'Basic Search', 'Advanced Search', and 'Search History' buttons. The main content area features an 'eBook Article' section on the left with 'Print' and 'Email' icons, a 'Mark this article' checkbox, and navigation buttons: 'Revise Search', '< Back to Results', and 'View/Print Mark List'. The article title is 'Advances in Understanding Cancer' in large, bold, red font. Below the title is an 'Overview' section. The article text begins with: 'By the second half of the twentieth century, heart disease, cancer, and stroke had replaced infectious, epidemic diseases as the leading causes of death in the United States. After centuries of confusion about the basic causes of cancer, scientists are gaining insights into the factors that cause the loss of control of cell multiplication that is the fundamental characteristic of cancer. A cure for cancer remains elusive, but many promising experimental approaches to diagnosis and treatment, based on developments in immunology and molecular biology, were undergoing clinical trials by the end of the 1990s.'

Advances in Understanding Cancer

Overview

By the second half of the twentieth century, heart disease, **cancer**, and stroke had replaced infectious, epidemic diseases as the leading causes of death in the United States. After centuries of confusion about the basic causes of **cancer**, scientists are gaining insights into the factors that cause the loss of control of cell multiplication that is the fundamental characteristic of **cancer**. A cure for **cancer** remains elusive, but many promising experimental approaches to diagnosis and treatment, based on developments in immunology and molecular biology, were undergoing clinical trials by the end of the 1990s.

The screenshot shows the 'Email this Document' form. At the top, there are navigation links: 'Virtual Reference Library', 'Help', 'Gale Databases', 'List of Sources', 'Dictionary', and 'Search Tips'. Below these are search options: 'Basic Search', 'Advanced Search', and 'Search History'. The form itself has a 'Return to Document' button and a 'Mail to:' field containing 'luis.serrano@thomson.com'. The 'Subject Line:' field contains 'eBook Article: Advances in Understa'. Under 'Format Options:', there are four radio buttons: 'HTML' (selected), 'Plain Text', 'PDF link (expires in 24 hours)', and 'Z39.80 Tagged Format'. A 'Send' button is located below the format options. At the bottom of the form, there are links for 'Help', 'Search Tips', 'Dictionary', 'Gale Databases', 'List of Sources', and 'Contact Us/Comments'. The Thomson Gale logo and 'Copyright and Terms of Use' link are at the very bottom.

5. Qué son los InfoMarks

InfoMark es crear un URL fijo dentro del cual el usuario puede grabar sus búsquedas de tal manera que los artículos o la información nunca cambian.

Con esto el usuario puede:

- Ahorrar tiempo.
- Compartir información.
- Actualizar información.
- Crear foros de discusión.
- Mantener a todos con la misma información.
- Crear búsquedas avanzadas y realizarlas nuevamente días, semanas o meses después.
- Crear listas de lecturas.

5.1 Pasos para crear un Info Mark.

1. Encuentre información de su interés utilizando el tipo de búsqueda que usted quiera.
2. Marque el resultado que sea interesante para usted colocando una paloma en el recuadro indicado.

The screenshot shows a web interface for an eBook article. At the top left, it says "eBook Article". Below this are icons for "Print" and "Email". A red circle highlights a checkbox labeled "Mark this article" which is checked. Below the checkbox are three buttons: "Revise Search", "< Back to Results", and "View/Print Mark List". The article title is "Accelerated Aging: Progeria". The text below the title describes the two major forms of progeria: Werner's syndrome and Hutchinson-Gilford syndrome.

eBook Article

Article 2 of 395

Fossel, Michael. "Accelerated Aging: Progeria." *Genetics*. Ed. Richard Robinson. Vol. 1. New York: Macmillan Reference USA, 2003. 1-4. 4 vols.

Accelerated Aging: Progeria

Human progeria comes in two major forms, Werner's syndrome (adult-onset progeria) and Hutchinson-Gilford syndrome (juvenile-onset progeria). Werner's patients are usually diagnosed in early maturity and have an average life span of forty-seven years. Hutchinson-Gilford patients are usually diagnosed within the first two years of life and have an average life span of thirteen years. The latter syndrome is often simply termed "progeria" and both are sometimes lumped together as progeroid syndromes.

3. Ilumine toda la dirección URL que aparece en pantalla y haga clic en el menú Edición y por último en la opción "Copiar".

The screenshot shows a Microsoft Internet Explorer browser window displaying the Gale Virtual Reference Library. The 'Edición' (Edit) menu is open, and the 'Copiar' (Copy) option is highlighted. A red arrow points to the 'Copiar' option. The browser window displays the Gale Virtual Reference Library page for 'Accelerated Aging: Progeria'. The page includes a search bar, navigation buttons, and the article content.

Werner's patients are usually diagnosed in early maturity and have an average life span of forty-seven years. Hutchinson-Gilford patients are usually diagnosed within the first two years of life and have an average life span of thirteen years. The latter syndrome is often simply termed "progeria" and both are sometimes lumped together as progeroid syndromes.

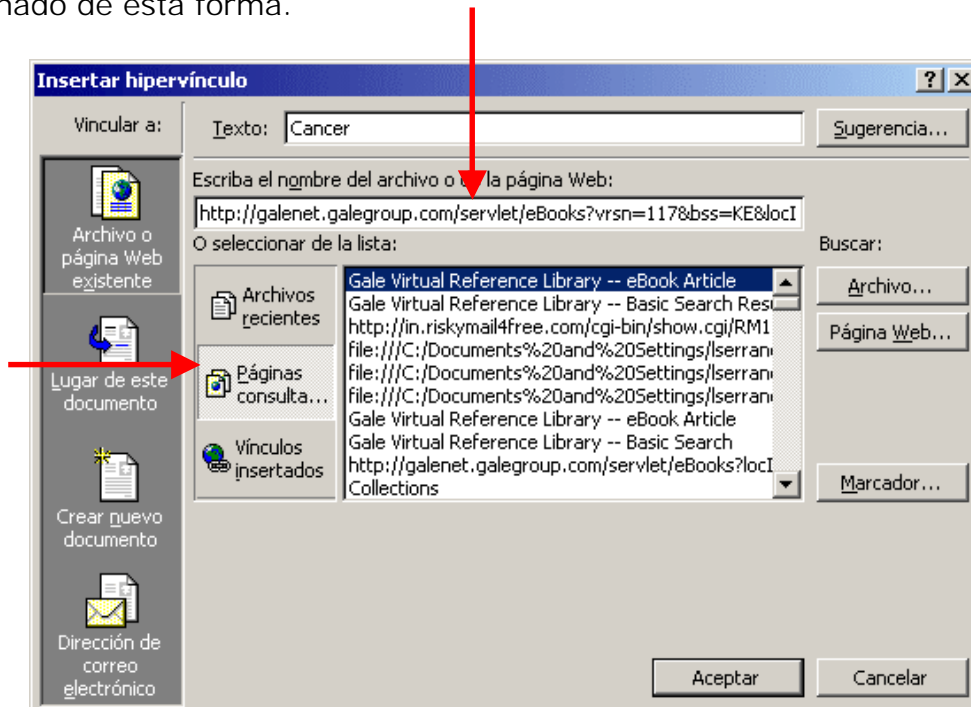

4. Seleccione un programa que soporte hipervínculos, puede ser:

- Microsoft Word
- Excel
- Power Point
- Outlook

Abra un documento nuevo y escriba una palabra relacionada con su búsqueda. Seleccione esa palabra y haga clic en el menú Insertar y elija la opción Hipervínculo.

A continuación, haga clic en la opción "Página consultadas" y seleccione la primera dirección URL, o puede pegar directamente el URL que copió en el paso anterior. Haga clic en aceptar y la palabra se ha convertido en un InfoMark, ahora cada vez que haga clic en ella, el sistema lo llevará directamente a los artículos que haya seleccionado de esta forma.
